Demonstrates knowledge of content and instruction.	Teacher makes content errors or does not correct errors students make.	Teacher displays basic content knowledge, but cannot articulate connections. <p style="text-align: right;">1</p>	Teacher displays content knowledge and makes connections between content and other areas of the discipline and other disciplines. <p style="text-align: right;">2</p>	Teacher displays extensive knowledge with evidence of continuous pursuit of such knowledge. <p style="text-align: right;">3</p>	
Written Daily Lesson Plans are evident and clearly aligned with State Content Expectations and District documented curriculum.	No Lesson Plan is evident.	There is some evidence that daily lessons and long term goals are inconsistent. <p style="text-align: right;">1</p>	There is evidence that daily lessons and long term goals are generally aligned with the district curriculum. Instruction activities are generally related to learning objectives. Plans include Bld. Instructional Strategies identified in the Schl. Imp. Plan and Prof. Dev. activities 2	There is evidence that daily lessons are relevant to students and instructional goals. Lessons progress coherently. Lesson plans include instructional strategies as emphasized in Bldg. Prof. Dev. Plan and School Impr. Plan. 3	
Designs Lessons in a Clear and Logical Manner. Plans include a variety of teaching methods and evaluation strategies.	The lesson or unit has no clearly defined structure or the structure is chaotic. Time allocations are unrealistic. The content and method of assessment lacks congruence with instructional goals.	The lesson or unit has a recognizable structure, although not uniformly maintained. Most time allocations are reasonable. Some of the instructional goals are assessed through the proposed approach, but many are not.	The lesson or unit has a clearly defined structure that activities are organized around. Time allocations are reasonable. Most instructional goals are assessed through clearly organized activities.	The lesson or unit structure is clear and allows for different pathways according to student needs The approach to assessment is completely congruent with the instructional goals, both in content and process.

Student Growth

Student Growth is defined as the performance of a student as an individual and/or group as improving developmentally appropriate academic achievement based upon established MDE standards.

Rationale: This rubric focuses on measuring student growth that accomplished three components:

1. Collaborative and theory and practice between the educator and administrator
2. Support district and building level improvement goals.
3. Support the professional development of the educator.

Data Sources / Assessments

Data may include but is not limited to:

Principal:	Teacher:

Comments:

By a mutually agreed upon date, the evaluator and teacher will meet to put in writing the selected assessment that will be used as data sources in this evaluation. If other assessments will be used, a written rationale will be provided as to why it was chosen. The administrator and teacher input in the collection of growth data will be of equal value in the assessment process.

Professional development of the educator is essential in the growth process. If an educator or their administrator feels specific professional development would be important to improving student growth that can be discussed during this process.

Teacher Performance Rating:

- 93 - 100 **Highly Effective**
- 74 - 92 **Effective**
- 60 - 73 **Minimally Effective**
- 0 - 60 **Ineffective**
